THE BEST SCHOOL

William Anderson Elementary School is the best! Here's all the information about why!

Staff

Most of the staff members here are amazing. They provide help to all students and help all around school campus.

There are tons of staff members who all have different jobs. There are staff members that help on the blacktop, apparatus, grass area, and in the Cafeteria at lunch time. The staff members are a big part of the school.

Teachers

I think that the best part of the school is the teachers. I've been here since kindergarten, and most of the teachers know me. My kindergarten teacher was Ms. To, my first grade teacher was Mrs. Tran, my second grade teacher was Mrs. Fusco, my third grade teacher was Mrs. Franke, my fourth grade teacher was Mr. Frauman, and my fifth grade teacher is Mrs. Ng.

Three other teachers I really like are Dr. Kamunde, Ms. Viewens, and Mr. Jacobs. Mrs. Ng is the teacher I'd say I've done the most science with, and all our experiments have been so fun.

I was really glad to be in all these classes because all of them were really fun, and each class has taught me something new or something I haven't learned in a previous class.

Outside

Our play areas outside are the best. We have a humongous grass area, a

huge blacktop, a baseball/kickball field, and an apparatus and a playground. We also have a volleyball field, handball court, basketball courts, and a track where you can run on campus and on the park area.

On our school campus, we have sheds where you can get equipment for recess and P.E.

School Activities

We have a lot of activities at school. To start off, one is P.S. Arts. P.S. Arts is a program throughout Lawndale that teaches the students at different schools different arts. Each art session is ten weeks long.

The first one we start off in the year is the art class with Ms. Edmonds. The next after those ten weeks is the music class with Ms. Park. And the final class is the theater/drama class. When I started off at this school, the teacher for drama was Mr. T., but it is now Mrs. Orduna.

Another activity is P.E.. Recently, the days of P.E. and the grades that do P.E. were changed. In previous years, the only grades that did P.E. were fourth and fifth grade, but now it is all grades. The days of P.E. were on Tuesdays and Thursdays, but now they are on Mondays and Tuesdays.

The library is also available for the school, and sometimes the librarian opens game-day on Wednesdays.

Anderson is the Place to Go!

In my opinion, William Anderson Elementary is the best school in Lawndale! Come to Anderson!

Student recommendations for the school lunch menu

WHAT I WOULD LIKE ON THE SCHOOL MENU

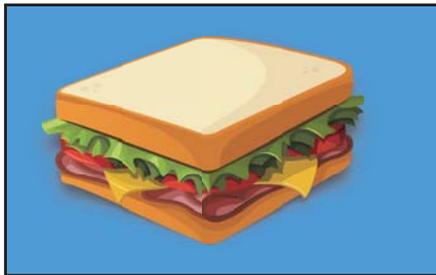

If I had to choose snacks on the school menu, I would want fruit such as watermelon, melon, mango, and mandarin oranges.

In addition to these healthy options, I would want mango smoothies to be added to the menu.

I would love some plain ham sandwiches too.

The vegetables I would like to have include carrots, broccoli, corn, beans, and lettuce. And these are just the healthy options.

Now we are going to talk about the unhealthy options for lunch. One of the things I would love to see are some hot chips as in Hot Cheetos and Hot Puffs. Another option is popcorn with butter. Also I

would love for candy to be sold. The candy I would sell would be Starbursts and Hershey bars.

Monday through Wednesday will be the healthy options and Thursday through Friday will be the unhealthy options. And every day, lunch will be one dollar. I hope you like my school menu.

By Daisy G.

A NEW SCHOOL MENU

If I could choose the school menu I would have a lot of different things. For example, I would have vegetarian options.

For breakfast on Mondays and Thursdays I would serve waffles, whatever type of egg you want, and toast if you got eggs. For drinks there would be milk or hot chocolate.

For lunch on Mondays and Thursdays you would have the options of corn dogs or pizza. And for your fruits you would get watermelon, oranges and mango. For drinks you can have anything

you want. Then on Tuesdays and Fridays, for breakfast I would have custom crepes, bacon, or sausages. Also there would be drinks like hot cocoa or milk.

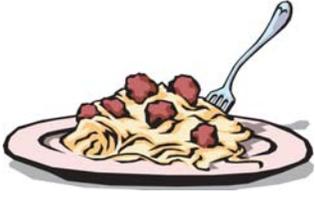

For lunch I would have ramen noodles, Mexican food, or pasta. Finally I would have pancakes or muffins. Next for drinks I would serve any drink you want. Then for lunch, I would have tacos, popcorn shrimp, or steak. Then you would get any dessert you desire. There would be a vending machine and a soda dispenser.

MY FAVORITE FOODS

If I got to choose the lunch menu at Anderson Elementary, I would like to add my favorite foods.

On Monday, for lunch, I would like to eat ice cream, sushi, and Sprite.

On Tuesday, I want chicken wings. For drinks I would serve water.

On Wednesday, I want Subway with apple juice.

On Thursday I want spaghetti and meatballs.

On Friday, I want pho and shrimp egg rolls.

For drinks, I want orange juice. For dessert I want chocolate ice cream.

By Karina S.

DESIGNING THE LUNCH MENU

If I got to design my school lunch, I would want to get many foods.

On Monday I want to have pineapple pizza with Kool Aid. On the side I would add chicken wings.

Tuesday I want to have spaghetti and meatballs

with water. On the side I want to serve garlic bread.

On Wednesday I want to serve hamburgers with pineapple on the side. For drinks, I want Arizona Iced Tea.

On Thursday I want to serve eggs with ham and chocolate milk on the side.

On Friday I want to serve KFC Fried Chicken with biscuits and juice. I want to charge them three dollars for lunch. Every day for dessert, ice cream will be served.

By Joshua M.

DAILY LUNCH MENU

If I got to choose my lunch menu, I would like to put my favorite foods.

On Monday, for my lunch, I would like to eat mac and cheese that is freshly made. On the side, I would like to have orange juice.

On Tuesday I would like to eat chicken flavored ramen noodles with a mango smoothie.

On Wednesday I would like to have teriyaki chicken with Hot Cheetos and water.

On Thursday I would like to have fish and chips with

grape juice and on Friday I would serve spaghetti with cheese on the top and cherry coke soda.

Every day for dessert, I would serve Oreo cake with vanilla ice cream. Every meal would be four dollars.

By Kelly B.

SCHOOL LUNCH

School lunches are not very good. If I were in charge of the school menu I would add in spaghetti, hamburgers, hot wings, sandwiches, and salad. I would also put in apple slices.

I think these foods should be on the menu because the students will like them. On Monday there

will be sandwiches and apple slices. Everybody will have the option to choose from milk, orange juice, and apple juice.

On Tuesday there will be spaghetti and salad. There will also be watermelon. On Wednesday there will be hot wings and melons. If the food is too spicy for students, they will have the option to choose between

sandwiches.

On Thursday there will be hamburgers and apple slices.

On Friday there will be sandwiches and apple juice.

This is why I should be in charge of the lunch menu.

By Esmerelda F.

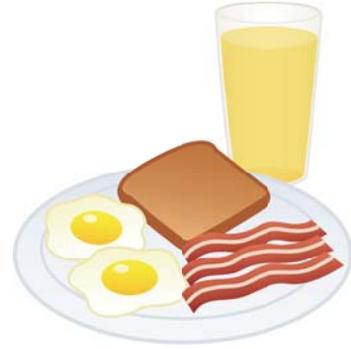

THE GREATEST LUNCH AND BREAKFAST MENU OF ALL TIME

The future lunch and breakfast menu would include mild hot wings, Little Caesars pizza, sushi, chow mein noodles, grilled cheese, hamburgers, ranch dressing, fries, smoothies, bacon, and toast. On Monday I would have grilled cheese, Caesar salad on the side, mango and a Sprite to drink. On Tuesday I would have hamburgers, fries with ranch, a banana and water to drink. On Wednesday I

would have Little Caesars pizza and would have fries again with ranch. I would also have grapes with orange Fanta. On Thursday I would serve California rolls, salmon rolls, an orange and calamari. The calamari alone would cost ten dollars. On Friday I would sell calamari, hot wings, grilled cheese, strawberries and chow mein. The drink for Friday would be Sprite or Fanta and the side would be ranch and fries. Besides

the calamari, everything would cost four dollars. Friday would cost twelve dollars. For breakfast, I would sell bacon and eggs every other day with orange juice and milk. On the other days, I would sell eggs, bacon, and sausage. Both of these breakfast meals would cost one dollar. This would be my own menu based on favorite foods that I eat.

By Ethan C.

AN IMPROVED MENU

I think we should change the school menu. The tamales here are too raw. I would replace them with well cooked tamales. We also have pizza made by the school, but I would rather have the pizza from Dominos. I would rather have the Domino's pizza than the school pizza

because the pizza at school is too greasy and the cheese is too crusty. They also give us hamburgers at school. The hamburgers here at school are missing a lot of ingredients in them. Some ingredients are cheese, lettuce, and mayonnaise. In my menu I would put in fruit bowls because it is

healthy. In the fruit bowls I would add watermelon, kiwi, jicama, mango, and Tajin. I would also put loroco pupusas because they are delicious. On the peanut butter and jelly sandwich I would add a little more jelly than peanut butter to make it even. That is my school menu.

By Dania S.

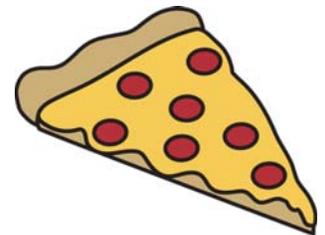

REPLACING THE LUNCH MENU

I think we should change the school menu. The pizza here is too chewy and too greasy. I would replace the pizza with Dominos pizza because it's not greasy and not too chewy. We also have tamales at school and I would rather have properly cooked tamales because the

chicken is always raw and the maza is too chewy for me. I don't like the corn dogs because they have too much bread and the inside of the bread is too soft and melty. Instead of corn dogs I would have fruit bowls, and the fruit bowls would include would be watermelon,

melon, kiwi, jicama, and a pack of Tajin. Instead of bean and cheese burritos, we should have customizable burritos which will include pinto beans, avocado, sour cream, lettuce, and rice.

By Andrea D.

DELICIOUS MENU

If I was going to pick food, I would pick pizza with cheese, chicken with noodles, and Icees. An Icee is like a hot and sunny day because it is yellow and blue, but it is cold.

I would play the movie *Beverly Hills Chihuahua* while serving popcorn and

chocolate milk everyday. I would serve Mentos and potato chips to Christa, my best friend.

At three in the morning, I'll serve Chinese food. I will let Girl Scouts make slime that is edible and made of all of the flavors of gum. It is warm like

a sunny day. Blue is blueberry and pink is like strawberry.

I will also serve Pocky. Pocky is a stick with chocolate on it. It is so delicious. Finally, I would serve Lunchables, pizza and cookies.

By Phoebe W.

MY NEW MENU

If I was going to pick a new lunch menu, I would pick sushi, pizza, and noodles. I would give it out at 12:00 pm. They taste good, and they are soft and smooth. They have stuff on it like parsley which is green, small, and curly. I like sushi because it has crab, cucumber, and rice.

During lunch, you can have a movie like *The Greatest Showman*, *Captain Underpants*, and *Cat and Sam*. You can drink winter melon milk tea.

For Friday, you can choose any drink you like. For example, you can have chocolate milk, milk, or water.

For snack time you can have potato chips. For dessert you can choose any ice cream you like! There will be banana, cookies and cream, and many other types of ice cream. That is my menu! I love my menu. It is delicious and yummy.

By Christa T.

WHAT I COULD SERVE FOR LUNCH EVERY DAY

I would put spaghetti and meatballs with sauce and carrots for a side on the lunch menu, because they are delicious. I know everyone will like it.

On Tuesday, I will serve pizza and spaghetti because

people like those foods. I will also serve pig ribs because people like barbecue. I will serve noodles and a fortune cookie and orange chicken because people like Panda Express. After everything, I will give them a blizzard dip,

chocolate ice cream, s'mores, Pringles, and a creative selection of fruits. I would have a tablet for them to pick what they want. And that is all you can redesign.

By Jacob M.

FOOD MENU

Tired of boring lunches? If I was in charge of the school menu, I would put in pizza, cheeseburgers, chicken wings, sandwiches, salad, watermelon, apple slices, and hot dogs. People would have either regular milk, chocolate milk, apple juice or water to drink. I would put these foods on the school menu because I believe that everybody would like them.

On some Mondays they would get pizza, on some Tuesdays, they would get cheeseburgers. On all the Wednesdays they would get to choose between chicken wings or hot dogs. Every day,

they would get to choose either salad, watermelon, or apple slices. Every day, they would also have to choose something to drink like apple juice, regular milk, or chocolate milk.

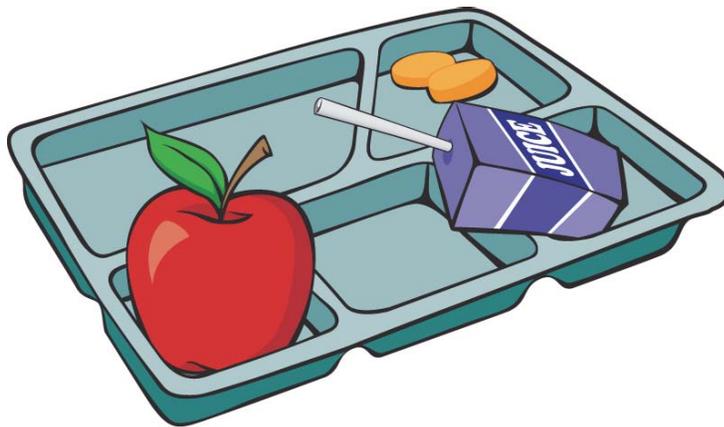

On Thursdays they would have to get a sandwich but it would be turkey or ham. On Fridays they would have pizza or a peanut butter sandwich.

On Thursdays and Fridays they would have the option to have dessert. On Thursdays, the desert would be cheesecake or cupcakes. The cupcakes are going to be vanilla and chocolate. On Fridays they would have the

option to get chocolate chip cookies or pie. The pie would either be apple or pumpkin pie. If you choose to get dessert you must get two servings of salads or fruits. When the students eat, there will be teachers around to make sure they eat healthy and don't waste their food. The food will be served in sizes of one scoop. They would not have to pay anything but they would need to have a school lunch application.

If I would be in charge of the school menu it would be better for these reasons.

By Ashley H.

HOW TO CHANGE LUNCH

If I were in charge of the school lunch, some things I would keep are fruit such as strawberries, oranges, banana and grapes. One thing I would like to add is broccoli salad with onions and tomatoes with ranch and other dressings.

I would also like to add pasta with any type of sauce. Another thing I would like to add is blueberry, strawberry and banana yogurt. I would

also add ham sandwiches.

Some unhealthy options are shrimp tacos. Another kind of food I would add is Domino's pizza with different kinds of toppings on. I would also get In-n-Out burgers. Also some steak and chicken. And for a snack I would get a little bit of Takis.

Some kind of foods I wouldn't want to keep is hot dogs, corn dogs, hamburgers,

and grilled cheese and quesadillas. I would not want to keep these foods because the hamburgers have too much bun and you can't taste the patty. And the grilled cheese is too melted. The quesadillas are very hard. And the hot dogs and corn dogs are not my favorite.

By Melinda L.

PIZZA FOR LUNCH

Pizza is not a healthy food but we can make it healthy by putting in spinach. You could use cauliflower instead of

dough. You could put orange cheddar cheese. You could dip it in ranch and ranch is a dairy. You could put sausage

on the pizza and sausage is a protein. Mozzarella cheese is also a dairy.

By Destiny R.

MY AMAZING MENU

On Monday we will have crispy fish with Dr. Pepper. On Tuesday we'll have popcorn shrimp with chicken. On

Wednesday we'll have hot wings with water. On Thursday we'll have tamales, fish n' chips, with drink

(optional). On Friday we'll have burgers and fries.

By Maleah M.

SALAD FOR SCHOOL LUNCH

My favorite food is salad. For a school menu I would put in a salad with cheddar cheese and one with no cheddar cheese. I would also make a toppings bar for the salad

because if they do want cucumbers or tomato they can put it onto their salad. I would also put corn and different types of cheese and salad dressing in the salad

bar. A salad can be a very healthy lunch.

By Sophia G.

YUMMY LUNCH MENU

The menu that I will make is the best menu ever. On Monday we'll serve Top Ramen. On Tuesday we'll serve pizza with pepperoni and cheese. On Wednesday

we'll serve chocolate, vanilla, and strawberry ice cream. On Thursday we will serve Oreo milkshakes, chocolate shakes, vanilla shakes, and strawberry shakes. We will

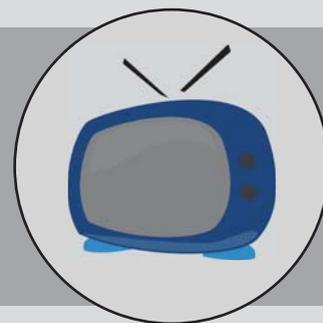

also serve lemonade, Coke, and fruit punch. On Friday we will serve cake pops.

By Alondra K.

It's All Fun and Games

Dolphins review their favorite shows, movies, games and books.

THE LITTLE MERMAID

The Little Mermaid is a great movie to watch. Some of the characters are Ariel, Flounder, King Triton, Sebastian, The Prince, and Ursula.

This movie is a classic family movie to watch. The movie *The Little Mermaid* is a sad, funny, and dramatic movie. The movie is located under the sea in a kingdom.

The movie is about a mermaid who falls in love with a human but her father is too overprotective. *The Little Mermaid* is a Walt Disney feature animation. The movie is also about a sea witch named Ursula who is evil.

The Little Mermaid is an animated movie that is made for entertainment for all kinds of kids and families. The

producers are Howard Ashman and John Musker. The directors of the movie are Ron Clements and John Musker. The movie is a family movie, but to me, it is a movie for girls. This movie is on DVD. This movie is an amazing movie to watch with family and friends.

By Destiny S.

SPONGEBOB SQUAREPANTS

Spongebob Squarepants is a very funny television show. After school when you are tired you can watch Spongebob to make your day better.

Spongebob is a sponge that lives in a pineapple which is located in Bikini Bottom under the Pacific Ocean on 124 Conch Street. His friends are Patrick the Starfish, Sandy the Chipmunk, and Gary his pet snail. He works at Krusty Krabs and his boss is Mr. Krabs.

Sometimes he goes to school and his teacher Mrs. Poppy Puff teaches Spongebob many things. The show *Spongebob* is about his life and how he spends his day. *Spongebob* is hilarious

because he does many funny things. For example, he goes on adventures with his friends and he messes up everything. He makes Squidward mad. Plankton doesn't like Spongebob so he tries to take the secret recipe from the restaurant so he could make their food and get rich. Plankton has a computer that talks and her name is Karen. Everyday *Spongebob* is threatened by Mr. Plankton but he never knows. However, *Spongebob* always finds a way to save their recipe.

If you have never watched *Spongebob* you are missing out.

By Ashley H.

Inside this Section:

The Little Mermaid	9

Mickey Mouse Clubhouse	10
Coco	10
Lilo and Stitch	10
The Nightmare Before Christmas	11
Pete's Dragon	11
Junie B. Jones	11
Fortnite	12
Minecraft	12

MICKEY MOUSE CLUBHOUSE

My favorite TV show is *Mickey Mouse Clubhouse*. It is my favorite TV show because it doesn't make me scared. Mickey, Goofy, Donald, Daisy, Pluto, the Professor, and Mortar Mouse are the characters. First, the Professor builds a machine to create

superheroes. Mortar Mouse makes a plan to shrink everything and put it into a ball. The superheroes try to slow him down, but his slippery bubbles help him get away.

After this doesn't work, Pete helps them stop Mortar Mouse by forcing Mortar Mouse to keep going the wrong way.

Then, Mickey uses a blimp to fly and catch up to the bubble to pop it and defeat Mortar Mouse. And then Mortar Mouse asks them if he can do the hot dog dance with them. Finally, Mickey Mouse finds out that they are cousins.

By Jacob M.

COCO

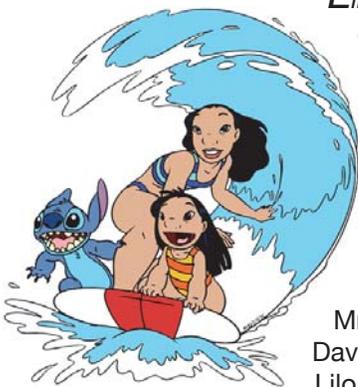

My favorite movie is *Coco*. The main characters are Miguel, Dad, and Mom. A kid named Miguel wants to play music but his whole family doesn't

let him play. He thinks the best music player ever is his grandpa. They go to his concert and mess up the whole thing for him. Now everyone can see how he's a bad person.

This is my favorite movie because it makes me both sad and happy. And I've experienced what he's gone through.

By Brandon R.

LILO AND STICH: THE FAMILY MOVIE

Lilo and Stich is a good movie to watch. Some of the characters are Lilo, Stich, Grand, Pleakley, Nani, Jumba Jookiba, Captain Gantu, Cobra Bubbles, David, and Mrs. Hasagawa. Daveigh Chase plays Lilo, Chris Sander plays Stich, David Ogden plays Jumba Jookiba, Kevin McDonald plays Pleakley, and Tia Carrere plays Nani. The

directors are Chris Sanders and Dean DeBlois. The producer is Clark Spencer. One can watch the movie on a DVD.

This movie is about Lilo and Stich and their family. Lilo thinks Stich is a real pet but he is not. A scientist made a mistake in the lab and created Stich.

The story takes place in Hawaii. They live close to the water. They go surfing and Nani works at a store by the beach. This movie is a good movie to watch because

anyone can watch it. It is a movie about a family and how their pet is different from other pets. This teaches the audience that it doesn't matter if their pet is unique or not; they love Stich the way he is. Also, it is a classic movie. It is old and people still watch it. It is so old that it is only on DVD and not in movie theaters anymore.

Families would like to watch this movie because it is appropriate for all ages, and it is about a family.

By Milev J.

THE NIGHTMARE BEFORE CHRISTMAS

My favorite movie is *The Nightmare Before Christmas*. Jack, Santa, and Boogie man are the main characters. Boogie man tries to take away Christmas from Santa by making Halloween

presents without him. He scares the boys and girls by bringing live monsters. He also takes Santa's sleigh. Eventually they get caught by people and sing a lot of songs. A girl zombie was also

a part of the Christmas heist. This is the best movie because it makes me feel sad and happy at the end that he got back to normal.

By Daniel M.

PETE'S DRAGON

Pete's Dragon is a great family movie for a lot of reasons. For example, some of the actors are well known for the movie such as Bryce Dallas Howard who plays Grace who is the explorer. Robert Redford plays Meacham, who is the dad of Grace. Oakes Fegley who plays Pete who is a boy in the woods. Oona Laurence who plays Natalie who is a friend of Pete and a daughter of Grace.

This movie takes place in the 1980s in a small town called Millhaven. Something that happens in the movie is that a little boy named Pete

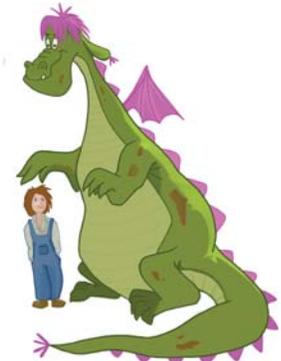

meets a dragon that's very big. Pete's dragon is very helpful in many ways. For example, Pete's dragon helps by helping Pete find food, and he also helps by helping Pete find shelter and a comfortable place to sleep. The dragon is also very helpful because he will always help anyone that needs help.

But some people don't like Pete's dragon so they decided to try to hurt the dragon meanwhile Pete is in the hospital because he was in the woods with a dragon. Somehow Pete finds a way out from the hospital and goes out to save his best

friend from getting hurt. Pete and his friend Grace find the dragon strapped on top of a truck. Pete and Grace take out the straps but the people come in the barn and try to look for the dragon. But people can't look for the dragon because the dragon's amazing power is to turn invisible.

Grace's dad tries to look for the dragon so he goes out looking for him. Grace's dad does not know that the dragon is flying above his car.

By Melinda L.

JUNIE B. JONES SMELLS SOMETHING FISHY

Junie B. Jones Smells Something Fishy was written by Barbara Park.

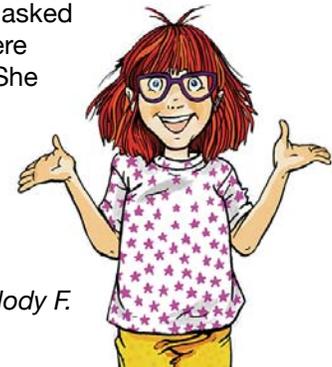

In this book, it was Bring your Pet to School Day. Junie B. Jones was looking for a pet to bring to school. She was going to bring her pet worm named Noodle but it got lost in the grass. She considered a blue pet bird called Tweedy but he was too

noisy. She had a dog but she could not bring a dog because the teacher said it was not allowed. She couldn't bring her pet fish named Sparkle because it was in a bowl.

The morning of Bring Your Pet to School Day, Junie B. Jones was having breakfast and her Grandma Miller asked if she wanted milk or juice.

Junie B. Jones asked for juice but there was none left. She looked in the refrigerator and saw her pet. What do you think her pet was?

By Melody F.

FORTNITE

My favorite game is Fortnite Battle Royale. To play Fortnite, you join a server with 100 people and the last one standing wins. You can get weapons to win the game. Here are some weapons to win

the game: LMG, Shotgun, and RPG. There are seasons that change the map and there are storylines. My favorite skins are Skull Trooper and Ghoul Trooper. One of the places you can land is Paradise Palms. My favorite thing to do in Fortnite is building. Building defends you from dying. I

can't wait for season 6 because Epic Games is going to add new storylines. You have to buy Vbucks to get skins, and the game is pay to win. My favorite dance is the true heart. That's how you play Fortnite Battle Royale.

By Joshua M.

Fortnite is a fun game because there are a lot of fun things to do. One of the things to do is battle other people. The player has access to a variety of guns and you can win a victory royale. One of the fun things to do is to buy the battle pass. The battle pass includes many challenges which the player has to complete and when the player does, he/

she earns fantastic rewards. Some of the rewards are skins, emotes, gliders, and pickaxes. The map contains a ton of different landmarks, such as mountains and giant craters. The player has access to vehicles such as shopping carts and golf carts. Some of the landing spots are tilted towers, paradise palms, and loot lake. I think that the coolest skins are Levithan, Brite Bomber, Flytrap, and the

Galaxy skin. The Galaxy skin is a rainbow skin that looks like a galaxy. The galaxy moves when you do. Another skin is Omega. Omega is a skin that is an evil robot and you can change the lights that it has on its body. You can get the colors by leveling up and completing challenges. Overall, Fortnite is a truly awesome game.

By Joshuaria R.

MINECRAFT

My favorite game is Minecraft. There are different types of modes. They are Survival mode, Creative mode, Realms mode, and Adventure mode. I mostly play survival mode which is all natural and has no cheats. You can't fly or get the items you want unless you earn them. I go on Creative mode sometimes, and I build houses I want in the future. In Creative mode, you get all of the cheats, but you can't earn badges. I like Realms mode because if I get invited and my friend

leaves I can still play the game. In the other game modes, you can't do that. I rarely play Adventure mode because you can't break blocks, and you can only place blocks. Some map creators build in Creative mode, and then they give you adventure mode so that you can't cheat in the maps they make. There are also some perks in Creative mode. For example, you can make a super flat world, and you can adjust a setting called natural mob spawning. It helps you keep the mobs away so you can build in peace without having to slay any mobs. Also, if you dislike building at

night, there is a setting to make it the day for the whole time. If you click on it, it will only stay on the day so you don't need to go to your home and go to bed. There is also weather cycle, and if you click it the rain, thunder, and snow will not bother you anymore. Snow makes ice and I don't like the fact that the snow melts in my house.

I recommend that you play Minecraft because it is fun and you can be creative with your own mind without being told what to do. Also, you can go outside into the world of Minecraft and play with your friends or just have fun.

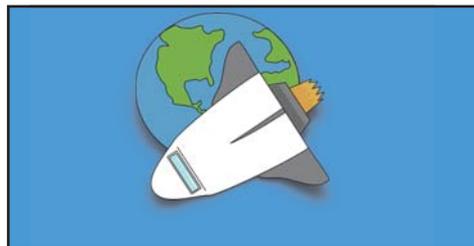

By Kelly B.

Reporters Ride the Wave with Current Events

A NEW SPACE MISSION

The first time people were on the moon was on July 20, 1969. NASA hasn't sent people since 1972. In December 27, 2017, Donald Trump signed a space policy. That policy put men back on the Moon to conduct research. Traveling to the moon is an important mission in order for us to learn about what it is and what it does. They're trying to build a mini space station. The mini space station travels 1,200 to 4,700 miles. This is a first step to eventually going to Mars. The first mission is supposed to go as early as 2019. NASA is making different ships to go to the moon to discover it. Trump wanted people to

go to the moon so they could go and help the United States. Florida will be launching a rocket to go to the moon. When the rocket launches, it heats up to more than 5,000 degrees. In conclusion, you might be able to find aliens on the moon.

By Sean A.

HURRICANE MARIA'S DESTRUCTION

Hurricane Maria happened on September 16, 2017 to October 2, 2017. This hurricane took place in Puerto Rico. When this event happened, people died. The bad part was that the supplies were very low, and some government employees that were responsible for this event were not qualified for their job. The people that were involved were citizens of Puerto Rico and government officials. Some American citizens helped donate some money for the cause of this event. They donated 32.4 million dollars to the Puerto Ricans.

Here are some damages that Hurricane Maria caused. Hurricane

Maria caused many floods in the area of Toa Baja, and everybody who lived in that area evacuated. A lot of buildings collapsed in the area of Old San Jose.

This event was caused by climate change, humans, buildings, and by people driving down the roads. According to Andrew Dessler, a climate expert at Texas A&M University, "Climate change is expected to make intense hurricanes more intense."

Hurricanes wreck homes, and they will affect nature, families, and animals around the world.

SAFE HALLOWEEN GUIDE

Follow these steps to have a great Halloween!

1. Cross the street at corners, using traffic signals and crosswalks.
2. Look left and right when crossing, and keep
3. looking as you cross.
4. Put electronic devices down, and keep your head up. Walk and don't run across the street.
5. Teach children to make eye contact with drivers

before crossing in front of them on the street.

5. Always walk on sidewalks or paths. If there are no sidewalks, walk facing traffic.

By Leah R.

UBER'S FLYING DRONE

Uber is working on a flying, self-driving "drone" for their company. Uber is a taxi service that can transport you to different places. A drone is a controlled, flying toy. The name of this drone is

"Ehang 184€." A side name for this vehicle is a VTOL, which stands for

Vertical Takeoff and Landing.

Passengers will use a mobile app service to register for a flight. Then, you will get in the vehicle and buckle the seat belt. After that, you press a button to show that you are ready for takeoff. The vehicle will say "three, two, one," and then you'll take off. In 2016, Uber's production chief, Jeff Holden, claimed the

vehicle should be available in the next ten years, but from now, it would be the next eight. He also stated that the company would be looking at using VTOL's as flying taxis in the city.

The Ehang 184 is a single passenger vehicle. Passengers will use a mobile app to register a flight.

By Telayia F.

BODY IMAGE AND MENTAL HEALTH

Body image and mental health issues are two important topics that people struggle with at school, in sports, or on social media. Problems with body image can happen because of puberty, graduation, marriage,

abuse, and trauma. Body image and mental health happen to more girls than boys. Some girls are self-conscious about their slimness, their weight, and what their friends think of them. Body image issues are

also caused by genes and environment. Genes are part of your DNA, and they control characteristics. Overall, body image and mental health are very important topics.

AREA 51

There is a little town in Nevada. The town is in Area 51. Area 51 is a dangerous place where aliens are supposed to exist.

The town is called Little

A'Le'Inn. Many tourists come to visit the town so they can attempt to see aliens in the spring. People from Germany and England come to see the aliens. Many people claim

that they have seen aliens.

Overall, there are many interesting things about Little A'Le'Inn and Area 51.

HURRICANE FLORENCE

An event that is currently happening is Hurricane Florence. This happened in the Coast and it affected North and South Carolina.

Hurricanes are very strong winds, and they can cause a lot of damage. Hurricane Florence caused a lot of damage. It cost \$1.2 billion to replace all the damage. The hurricane also caused major floods. Almost 300 highways in North Carolina remained closed due to flooding. One thing to know and be cautious about is to never drive on flooded roads. This hurricane was very strong and injured a lot of people. Hurricane Florence tore through the Carolinas with record-setting

rainfall and 50 mph winds. Hurricanes form near the equator and are driven by warm ocean water.

Hurricanes use warm water as fuel, so it's like a car that needs gas so it can go.

Hurricane Florence has left more than 1.1 million homes and businesses without power. The homes of about 10 million are under threat. Hurricane Florence, now a Category Four storm, is the first major hurricane of the 2018 Atlantic hurricane season, according to the National Hurricane Center. At least 37 people have died in storm-related incidents -- twenty-seven in North Carolina, eight in South

Carolina and two in Virginia.

Hurricane Florence occurred from August 31 to September 19, 2018. Hurricanes are very dangerous. They occur on the equator in warm ocean waters. At least 51 people have died in the Carolinas from Hurricane Florence. It started over the Cabo Verde Islands off the coast of West Africa. It peaked as a Category Four hurricane with sustained winds of 140 mph.

Hurricane Florence also destroyed trees. Many places received record-breaking rainfall, with more than 30 inches (760 mm) measured in some locations. Hurricane Florence is a current event.

HOW GLOBAL WARMING WILL AFFECT ARCTIC ANIMALS

Crabeater seals live in Antarctica. The crabeater seals are white, brown, and light brown. When there is global warming, they go on top of the ice and go by the water. Once penguins turn nine weeks old they get their own waterproof feathers like

adult penguins have. Their feathers are white and black, their eyes are white like snow on the outside and black like their feathers on the inside. The snow petrels are white, and some have orange-pink colored feathers. Global warming makes the ice turn

into hot water. If it gets too hot they might become extinct. Another way they might become extinct is if they can't find a place to stay when it is hot.

NEW SIX FLAGS OPENING

There is a new Six Flags park being built in Haiyan, China. This is 45 miles from downtown Shanghai. It's being built by Six Flags Entertainment Corporation and Riverside Investment Group Co. Ltd. They are planning to build

different roller coasters that are crazy, fun, and scary. They have different themed scary roller coasters that are coming next Halloween. They are also trying to make the new Six Flags park much better and much more fun. The new and improved Six Flags park will cost a lot of

money -- around \$4.6 billion dollars. It is likely going to be finished in 2019, which is very soon. This park is sure to give visitors a great time. I think this park will be worth the money. I don't think that I will ever go to China to visit the park.

FOSSILS

The oldest known animal was found in London. The animal's name is Dickinsonia. The animal lived 558 million years ago. The fossil was first discovered by Australian scientists. Fossils are mostly made of bone and dust. This

fossil was in such good shape that fat was found within the structure. Fossils are parts of animals that were alive in the past, but we don't see those animals now. Scientists sometimes think that there is some possibility they are still

alive; they might be nearby, staring at you. It would be crazy to randomly find a dinosaur anywhere, but life is just a mystery.

NEW PARK IN SAN FRANCISCO

The Spirit of California is a new park that will be done by 2024. It cost roughly \$1.2 billion to build this park in Tracy, a city outside of San Francisco. It is important that

the park is good enough to attract visitors. The park must attract visitors to pay the whopping cost of \$1.2 billion dollars. The cost of admission will be expensive.

The theme park will be done in the year 2024. The person that will pay for the theme park is James Rogers.

BEEES UNDER THREAT OF EXTINCTION

Bees are important to flowers because they help with pollination. Sadly, bees are going extinct. With their ecosystems being destroyed, they are now without a home. The queen lays 2,500

eggs which will eventually die if these bees are not saved. It is still a mystery how so many of the bees are disappearing. There needs to be more funds towards Save the Bees organization so the world can solve this issue. Without bees,

the pollen will not be spread, so flowers will not be pollinated. Everyone loves plants and flowers, so the bees must be saved.

Dolphin Tales

If a new student came to Anderson, what would you tell the student are the best things about this school?

THE BEST SCHOOL IN LAWNDALE

You should come to our school William Anderson Elementary because we have the best P.E. program and do fun activities. We also have really good food everyday and a good education.

During recess, we play basketball and soccer and whatever else we want to play.

I really like the pizza served on Friday because it has a really good flavor.

We have the best teachers and they give us easy homework. They let us sit anywhere and it's comfy to sit wherever we want.

I also like this school because it's local to most people, and it's only four minutes away from my house.

This school also has very good and cold water fountains and I drink water here when I'm thirsty. We also

have very good air conditioning and heating that makes me feel warm and comfortable when I come out cold from recess.

This is why I think this is the best school ever. I think everyone should come to this school.

By Daniel M.

...a fun place to play and learn!

WHY I LIKE ANDERSON ELEMENTARY

You should go to Anderson Elementary for many reasons.

The food is getting better as they are now serving chocolate milk and tamales.

The school has very nice teachers. The blacktop area is very nice and you can run around the blacktop. There is a very big grass area so that people can play soccer and tag

if they want to during recess and lunch.

They have a cold water fountain that not many schools have.

They have an after-school program that helps kids with their homework. Students also get to play with their friends. This program is called R.A.P.

There is a new building that is two stories high and there are enough computers for the entire school.

ALL ABOUT ANDERSON ELEMENTARY

You should go to Anderson for many reasons. There is a big park and a big black top. They have good food near the end of the year like chow mein.

They give you a good education in this school with good teachers. My school is fun, but sometimes people are wrong. Everyone is cool at my

school, but other schools are different. We have a big park behind the blacktop, and we have a tree. We have a baseball field. People are weird in a good way.

They have one cold water fountain. They have a new building that is two stories tall. There is an after-school

program called R.A.P. and it is fun after school because you get to pick a club and hang out with your friends. You can play anything you want. We have the playground with grass.

By Sean A.

WHAT'S GOOD ABOUT ANDERSON

I like this school because there is less homework. This lets me play with my friends more instead of doing more homework. If we get less homework, we get more time to hang out with our family. With our family, we can go to fun places such as our grandmother's house, parks,

and Knott's Berry Farm.

Another reason is that we go on fun field trips. Some of these fun field trips were Knott's Berry Farm, SeaWorld, Soak City, and Water Recycle.

P.E. is fun because we do some workouts that are good for our body and play some fun games if we have time.

My other reason is about R.A.P., which is fun and good because in R.A.P, we can do our homework instead of doing it at home. The R.A.P. teachers are there to help you. Also, when we have a little bit of time we can play games outside.

By Gadiel D.

THE BEST OF ANDERSON

Teachers help you learn, so if you need help they will help you. They might teach difficult things, but you just need to be honest and tell them that you need help. When it comes to them being mad at you, you might not like them because they will have a talk with you and tell your parents. It is good for them to talk to you because that way you will learn from what you did wrong. When you go home your parents might talk to you, but in your mind you

will know that you will do better next time.

The classrooms are the best too because there are whiteboards and activities that you can play with when it is free time. The teachers let you play if you are being good. If you aren't, they will probably give you a second chance or talk with you about why you are in trouble. They will talk with you and whoever you were fighting with or not comfortable with. They will also let you

know if you were talking and interrupting. Then you will have to wait or not have any free time. Sometimes if you are being an awesome student they will give you a sticker. When it is Friday they will sometimes have prizes like notepads, a sticker sheet, a book, an air ball, and a box to put your school supplies in.

By Kayla L.

COME TO ANDERSON ELEMENTARY

The best things at Anderson are the birds, dogs, and hamsters as class pets.

Anderson has R.A.P., where everyone gets to make slime with Girl Scouts.

Anderson has cold water fountains, which are very

refreshing for everyone.

Anderson has P.S. Art, where people make Black Panther masks.

During recess, there is an option to play with dolls, but I prefer the apparatus. We also pull pranks on other

classmates by drawing silly holes on sticky notes and sticking them on them.

Anderson is the best elementary school. You should come and bring your friends too!
