A SLICE OF MATH

By SEAN A.

Today my teacher taught us fractions and equivalent fractions. We learned by using different foods that were pizza and pie. We then cut the pizzas and pies in halves, fourths, and sixteenths. An example is $\frac{2}{6} = \frac{4}{12}$. The example problem answer was $2 \times 2 = 4$ and $6 \times 2 = 12$. The method we learned was to find the multiple of the equivalent answer, and they have to be the same as that multiple, like a multiple of two, six, or any other number.

Math is important because it helps you in everyday life. For example, if

there is a real life pizza and you're trying to figure out the fractions and how many slices to cut, you can figure it out by using math. It's also interesting because you can figure out how many pies there are for each friend.

This information came from my third and fourth grade teacher. They taught me math. Also, my parents also told me this

information.

In conclusion, math is good for critical reasons like thinking outside the box and it teaches you to become a master of smartness.

SPECTACULAR SCIENCE

By HECTOR M.

Science is learning about new elements, animals, and all about the world. You can learn how to build things and about what different things are made of.

Math is fun, because you get to do fun projects. In science class, science projects can be about trying to build a catapult and launch a small fake

pumpkin. This was fun because the launching was really cool and exciting.

Science is also creative. When building a catapult, you need a blueprint. You get to draw the blueprint of the catapult.

Science is also the best subject because it is educational. You get to learn about elements. For example, calcium is silvery gray. Its atomic number is 20 and its symbol is Ca. Humphry Davy discovered Calcium in 1808. Calcium's state of matter is a solid.

**DO THE WRITE
THING**

MATH IN THE EVERY DAY WORLD

By TELAYIA F.

Math is my favorite subject because there are many different things you could do in real life using math. For example, money is a part of math. We use money everyday to pay for food, buy materials, get groceries, and many other things.

Another part of math is fractions. Fractions are very fun, and could help out in reality. We can use fractions in everyday life in baking, telling time, shopping, paying bills, and splitting up things. Fractions help out a lot in everyday life.

One of my favorite parts in math are operations. Multiplication, division, addition, and subtraction are operations. Operations get easier

and easier after practicing. An example of multiplication is 12 times 9, or in other words 12 times as much as 9. One example of division is 100 divided by 25. Next is an example of addition, which would be $95 + 35$. And last, an example of subtraction is $150 - 90$.

In operations, you can also do fact families. An example of an addition fact family would be:
 $95 + 25 = 120$
 $25 + 95 = 120$
 $120 = 25 + 95$
 $120 = 95 + 25$
 This is an example of an adding fact family.

Another part of math is geometry. So far in class, we've learned about lines, line segments, points, rays, and angles. A line goes on

forever non-stop, but a line segment is a line that has a point or arrow at the end of each line, and often two letters. A point is a dot at the end of a line or on the line, and a ray has a line with an arrow on only one side, and sometimes letters are on it.

An example of an angle is a right angle, which has two intersecting lines that are perpendicular and at a 90 degree angle. We can use geometry in everyday life when building something, or during activities, such as sports, video games, and even food design.

These are all reasons and examples explaining why math is my favorite subject.

ART IS COOL

By GISELLE M.

Art is a cool subject because when you make a drawing, some people think it's a masterpiece and want to stare at it.

In art, you learn that if you don't have a paint color, you can mix paints to make that color.

And you can show your creative side when you paint and draw.

Lastly, you don't need drawing skills to like drawing!

Some fun things to draw are fluffy animals if you want a challenge. If that's too hard then you

should try to draw the sun.

Also, you don't have to draw or paint on a piece of paper. You can also sculpt things and paint on other objects, such as bowls sculptures, and other things people make.

ENGLISH

By ETHAN C.

English is a fun subject because students can read all types of books like mysteries, chapter books, and adventure books.

A great book that students should read is *Harry Potter and the Sorcerer's Stone*.

This book is about Harry Potter and his friends and how they tried to protect the Sorcerer's Stone and how Professor Snape tried to steal the stone. This type of book is a mystery and adventure.

Reading a lot can help a student read more fluently. Reading fluently means that a student can read fast and understand it. Reading is important because you have to be able to read to get a good job.

MY AWESOME MATH

By BILDAD

Math is fun because I get to learn. Math is a way to challenge myself. I like how I can use different strategies to solve a problem. I like math because of the way I feel after solving a math problem.

I also like math, because I like adding on to a number. I like subtract-

ing too, because it is easy for me. Easy math problems help me relax.

Multiplication and division are hard but I still doing problems. I like to play math games like flashcards. I like to use flashcards because I get to play against my classmates. Math allows me to count my collection of

beads, paper, and legos. I use math when making bracelets for my sister. Math helps me so I can make a design. I use math to pass paper out to the class. When making legos, I use math to stack ten and stack another ten next to each other. Once again, I like math.

CURSIVE WRITING

By ANDREA T.

Cursive Writing is my favorite thing to do in school.

Cursive is a different writing style where the letters are always connected together unless you are starting a new word or a new sentence.

I personally like cursive writing because the letters are funny. I also like it because it looks cool and fancy.

I like writing my cursive using pens, pencils, and sharpies.

Sometimes when I

write in cursive it hurts my hand but the practice is also soothing to me.

I first learned how to write in cursive when I was six years old. Once you put all your cursive writing together, it looks amazing!

SCIENCE

By **KIMBERLY R.**

My friends and I like science a lot. I like science because you can do fun experiments and mix different chemicals for different reactions.

In science, it was really fun when my classmates and I made slime.

Another project was

making Indian masks. My region is the Pacific Northwest. We made them out of foil, liquid starch, paper, and water. You make the shape of the face with foil. Then you put some liquid starch in a bowl and then add water to the starch.

Next, you grab little pieces of paper and dip them into the mix of starch and water. You then wait for some days. But you have to leave a hole in the back so you can remove the foil.

That is why I like science.

MORE FAVORITE SCHOOL SUBJECTS

ART AND RECESS

My favorite things about school are art class and recess. I like art, because we do art and projects. I like recess, because we get to play whatever we want.

I like to play with rubber bands during recess, and I like to do projects in art class and draw on the whiteboard.

By Marley V.

MATH

My favorite subject in school is math because you can do multiplication, division, addition and subtraction. You also can use different strategies to math problems.

I love to read because it helps me learn and I love to write because if

you write your hands get stronger.

By Janada W.

MATH, READING, WRITING

My favorite subjects in school are math, writing, and reading. Math helps you learn addition, subtraction, multiplication, and division, and you learn how to use different strategies. I like writing so I can share a lot of ideas and schemes. Also, I like reading because I can learn new words.

By Teairia F.

ALL THE BEST THINGS ABOUT SCHOOL

At school, you can play with your friends, and you can play games with them like soccer. I also like soccer because you

can kick the soccer ball and make goals.

I also really like math, science, and reading books. Why? I like to learn new things. I learn almost everyday and I love to go to class, unless I'm sick. I love my teachers.

I also love my R.A.P teachers because there are clubs to go play in. If you don't know what it is like to stay after school and have fun, you should try it.

By Adam V.

MATH AND SCIENCE

My best subjects are math and science. I learned about time tables and number lines in math. In science we did experiments such as the catapult.

By David M.

PressFriends Foreign Correspondent

GETTING A KICK OUT OF GAELIC FOOTBALL

By Lara B., Northern Ireland

In school, my favourite subject is PE, where we get to play a great variety of sports, either indoors or outdoors depending on the weather.

As you can imagine here in Ireland, we end up being indoors a lot of the time! On these days it is either netball, the gym, gymnastics or dance.

Gaelic Football

At the moment we have crisp dry Autumn days, where you get to play my favourite sport of all: Gaelic football. Gaelic is the Celtic version of soccer, where you get to fist pass the ball to your teammates or if you're lucky, score a point or goal through or below the tall, white "H"

shaped cast iron bars.

My favourite position is back, where you get to tackle your marker, stopping them from shooting and defending your goals. This can mean an incredible amount of running in short, sharp bursts. Great practice for my second favourite sport, Irish dancing.

My friend Eibhlin prefers midfield. She jumps and catches the ball in midair from the

backs and sprints like lightning to the forwards so they can strike the ball into the net or over the bar.

The laughter, the craic (means fun in Irish) and the team spirit makes it all worthwhile.

We are always completely exhausted after a game, dragging our football studs noisily along the concrete, yet we have had such fun getting there! The laughter, the craic (means fun in Irish) and the team spirit makes it all worthwhile.

How could there be a better subject/sport than this?

PressFriends Inc. is proud to sponsor the *Dolphin Times*

PressFriends Inc. is an all-volunteer, youth-led mentoring organization. Middle and high school mentors work with your elementary student reporters on the *Dolphin Times*.

Since 2008, PressFriends Inc. has mentored over 3600 elementary students in Los Angeles County, published over 115 newspapers, and printed over 50,000 copies of those newspapers. PressFriends' mission is to make writing and learning fun for elementary students to improve their opportunities in the future.

BOOK REVIEW: WONDER

By ANGIE R.

What is *Wonder*? *Wonder* is a book about a kid named Auggie that looks different and it is his first time going to school. He is not happy about going to school.

On the first day of school he had no friends and all the kids look at him. None of the kids wanted to be his friend except for one kid named Jack.

On Halloween, Auggie heard his friend Jack say-

ing he didn't want to look like Auggie to some other boys. He was hurt, so he went to the nurse and said that his stomach hurt so they called his mom and she came to pick him up.

When Auggie got home, he ran straight to his room and said "I don't want to go back to school ever again!"

A couple of days pass and his sister said, "Are you going to school tomorrow?" He said "no"

and his sister said then how are you going to keep on telling mom that you not feeling good? And he said that's what I'm going to keep on doing, and his sister said she was going to tell their mom if he didn't go to school. He said he would go to school and he went to school with no friends to talk to. He then met a new friend, named Summer, and eventually becomes friends with Jack again.

NETFLIX REVIEW: HATERS BACK OFF

By CHAU N.

What is *Haters Back Off*? Basically if you know Miranda Sings, you will know. Miranda Sings is a character created by Colleen Ballinger on YouTube.

Ballinger began the role as Miranda Sings to get fame and popularity for her funny acting. Her Netflix series, *Haters Back Off*, is a funny family series. She has a dad who is so dumb and he forces her to get fame and money. He is selfish and wants to get the

money that she makes off from her videos and then her family actually moved up to the crawl space balcony.

Miranda also has a crush on Patrick that sells her foot circles.

In Season Two, they have a five phase plan to help Miranda become famous and her dad takes her to Broadway. They come home to find that nobody is home because they got evicted and moved to the basement.

Uncle Jim also helps Miranda get fame and in the middle of Season Two, Emilie, her sister, goes to live with her dad. Her mom, Stephanie, comes to ask Emilie why she was staying with her dad. She said that it was because she liked it there more because it calmer and quieter, even though her dad did not really care for Emilie.

I hope you guys watch *Haters Back Off* on Netflix. The show is really funny.

TV REVIEW: KC UNDERCOVER

By TELAYIA F.

I have two favorite television shows. They are *K.C. Undercover* and *Raven's Home*. They are both on Disney Channel.

K.C. Undercover is my favorite of the two. *K.C. Undercover* is about a teenage spy who goes undercover. She has to keep it a secret, or else

she'll be exposed. But, she does tell her best friend Marissa.

K.C. is the young spy, who is played by the actress/singer Zendaya.

Sometimes, there are guest stars on the show, who aren't usually on the show.

K.C. works for the

Organization, which is good. There are two other teams who aren't so good. They are the Other Side and the Alternate.

Other characters in the show are Ernie Cooper, Judy Cooper, Greg Cooper, Kira Cooper, and Simone. KC is my favorite.

TV REVIEW: RAVEN'S HOME

By TEAIRIA F.

My favorite TV show is *Raven's Home*. This TV show is a comedy. It is about two families that live together under one roof.

The characters in the

show are Raven, Chelsea, Levi, Tess, and Nia.

Tess is my favorite character because she is funny and cool.

Here are three things why I like *Raven's Home*.

One reason is because it is funny. Another reason is because the characters are funny and weird. My last reason is because they are always going somewhere fun.

RESTAURANT REVIEW: HOMETOWN BUFFET

By JOHANNA G.

Where is Hometown Buffet? Hometown Buffet is in Westchester, 8629 S Sepulveda Blvd, Westchester, CA 90045, and there is one in Torrance at 3520 W Carson St, Torrance, CA 90503.

Hometown Buffet has a lot of different dishes and you can eat as much

as you want. The first time I went there I got chocolate cake, pizza, chicken, coca cola, an ICEE, noodles, and cookies. That was a great day and I just wanted to stay there and sleep.

I begged my dad to go there again, but the bad news was he said no. The

next thing I did was to go to my room and think about not being mean to my dad. The correct thing to do was apologize so that is what I did. The thing about Hometown Buffet is that it's comfortable and everything about it is amazing.

TV REVIEW: STRANGER THINGS

By ANDREW R.

S*tranger Things* is a Sci-Fy show on Netflix.

In this show, Eleven is this girl that can control things with her mind, Mike is a kid that gets bullied with his friends, Lucas, and Dustin, Will is a kid who goes missing by a alien looking thing, and Hopper is the cop of town.

My favorite character is Eleven because she can control things with her mind and she can also control people.

I like "Stranger Things" because the characters are very fun-

ny, the action is great and the alien is very scary.

My favorite episode is when the kids were fighting the alien in the end of the episode. In the first episode Will was attacked by the alien when he was riding his bike home from his friend's house and when he got to his house the alien unlocked the door and Will ran to the shed in the back of his house. Then the alien took him from behind.

In the middle of the season, Mike's sister Nancy, and Will's brother,

Jonathan, were in the woods looking for Will. Then Nancy was in the Upside Down and Nancy was calling Jonathan for help. He could hear her but he was in the real world.

In the end, the kids fought the alien but Eleven saved them but disappeared. The kids went to the hospital to see Will. He was feeling a lot better and when he got to his house, he went to his bathroom and spit a slimy thing from the upside down.

Everything went back to normal for now.

FOOTBALL

By CRISTIAN L.

Football is an American sport because the government chose it to be a sport.

Football is very interesting because the players tackle people on the field and have to run and catch good. This is very important but you also get to work out and play with your friends.

The NFL earns money every time football is

played by NFL teams - for every regular and Super Bowl game.

The two main skills in football are catching and running, and there is a defense and offense.

In football, you need to focus on being able to run, catch, and out maneuver the other team, so you can play it the right way like the real NFL players.

Defense is when you tackle people to stop people from getting touchdowns. Catching and running is when you try to advance the ball.

In conclusion, football is fun to play and helps people exercise and make new friends. If people play football, they will become more healthy.

THE AMAZING SUMMER AT RAP

By KIMBERLY R.

My summer was the best because I went to summer RAP. It was so fun and there were lots of people and different activities to play. There was a lot of drama but it was still fun. I like lots of drama. I made lots of new friends at summer RAP.

It was my birthday on August 5th. It was so much fun. Some of my family members came to

my house. It was a small party not a big party because most of my cousins live in San Francisco.

I have a lot of cousins. My cousins are so much fun. They have different

games to play. Sometimes they make up their own game. I like going to my cousin's house.

This summer, I also signed up for piano. I think that piano is so much fun. I also made a new friend at piano. Her name is Leanna.

I went to a pool this summer too, because it was so hot.

This was the best summer ever.

HOME IS WHERE THE HEART IS

By GISELLE M.

My favorite place is home! The reason is because you get no rules unlike other places, and you can have pets, candy, and toys.

Also, you can make a mess at home (if you clean it up), yell, eat a lot and do a lot! You can also talk to whomever you want, and you can watch scary movies and shows if your parents let you.

A couple more reasons are because if you

are like me, you can run around in circles wearing whatever you want. I do this around our coffee table.

You can also hide from whomever lives in your house. And if you are bored, you can make food. I suggest making cakes, cupcakes, soup, and homemade pizza.

If you have a pet or pets at home, you can play with them and do

cool tricks with them.

Your home can be anywhere—like the forest, Los Angeles, China, Mexico, or California. You can have a loud, silent, or an amazing neighborhood that is fun.

SUMMER MEMORIES

SUMMER CAMP

This past summer, I went to summer camp in Rosecrans Park. It was a lot of fun.

Two weeks, later I went to a pool at another park. The water felt very cold.

Lastly, we had a lot of sports games in summer camp like dodgeball, basketball, soccer, baseball, and kickball. My favorite sport was dodgeball. I liked it because I am very good at it.

Then we started football practice at Victoria Park. The position I play is a defensive end. My job is to make sure the quarterback does not have a chance to throw the ball or run.

After that I went to Culver City to run up a big hill. Then we had our first football game and we won the game 40-0.

I spent a lot of my summer at the park. Al-

most seven weeks if I had to guess.

By Ethan C.

SUMMER FUN

Over the summer, I went to Disneyland with my family. When I went to Disneyland, I went on a ride. I also bought a lot of things.

I also went to the swimming pool with my family. I made a lot of friends when we were playing in the pool.

We ate dinner together and watched movies together. I also enjoyed eating in the morning with my family.

Last summer, I went to Las Vegas. I went inside the pool in Las Vegas with my brothers and sisters. When we finished swimming we got out of the pool and we went to a lot of rides. My mom couldn't do the ride because she was really scared.

This summer, I also went to Monterey I was so happy to go swimming and my family and I went inside the pool with my brothers. After we went swimming, we got out of the pool.

In the morning we went to eat breakfast, and at night we finished eating dinner and after one minute we went to the pool again. After we got out, we watched TV and then went to sleep.

When I went to swimming class I had fun swimming.

By Janada W.

KNOTTS & RAP

My favorite activities over the summer was going to Soak City, Knott's Berry Farm, Las Vegas, Indio, field trips, my friend's house, and summer RAP.

At Soak City I went on water slides called Tornado, Hurricane, and Blizzard. In the water slides, you go down the slide through an open hole and water goes down when you go down the water slide.

When you start getting on the water slide there is one

where you can go on with one other person, and there is one you can get on by yourself on a floaty.

In Soak City I also went in the Lazy River. I played pool tag, hide-and-go-seek, catch, and capture the flag. I was also relaxing on a floaty. That is what I did over the summer at Soak City.

At Knott's Berry Farm I went to Ghost Town. In Ghost Town, I rode on the Ghost Rider. Another ride I went on was in Camp Snoopy. It had jumping cars, swings, and a ride that you lay down on. A ride I went on in the back of Knott's was bumper cars.

SUMMER MEMORIES

At Knott's, they also have "Watch a Snoopy" show. I saw Charlie Brown, Snoopy, Lucy, and other characters.

Some rides I went on were Montezuma, Jaguar, the claw, and tea cups that spin in a circle.

I had a great summer.
By Teairia F.

WASHINGTON D.C.

This past summer, I went to Washington D.C., and I also went to Canada. I went for two weeks and two days. I stayed in Washington D.C. for two weeks and I went to Canada for about two days.

In Canada, I went to Niagra Falls and we went on a boat to see the falls really close.

What I really enjoyed was that we got to see the White House and we also got to see the Capitol. I also enjoyed exploring new things. When I was in Washington D.C. I explored the city and also

walked around a lot and took a lot of pictures.

I really enjoyed seeing my family, that was really a blast. I also enjoyed spending time with my brother when I came back.

Another thing was that I went to field trips at summer R.A.P.
By Andrea D.

LAS VEGAS

In the beginning of the summer, I played Naruto online. Then, I got out of my bed and packed for Las Vegas.

On the car ride to Las Vegas, I slept for six hours and went to McDonalds to eat breakfast.

In Las Vegas, I was scared because there had been a crime in a buffet parking lot. I enjoyed Adventure Dome in the Circus Circus Casino.

After a week in Las Vegas, we drove back home. This was

the most fun I had over the summer.

By Cristian L.

GREAT WOLF LODGE

This summer I went to Great Wolf Lodge. It was very fun. I loved going down the slide and splashing into the water. I went with my mom and my cousin. We got ice cream, and had so much fun.

After all that fun, we went to sleep in our hotel. It was cool because there is a section for kids in the hotel.

In conclusion, my summer was very fun.

By Madelynn P.

PLAY, PLAY, PLAY

In my summer I had a great time. I played and played and never stopped. In summer I also remember going to Raging Waters and pools and also summer RAP.

I had a cool summer. I miss summer but I'm glad to be back at school.

By Bildad R.

MORE AT THE GREAT WOLF LODGE

In the summer I went to Great Wolf Lodge and we stayed there for the night. There was also a GIANT water slide, two of them! My friend, who was younger than me, could not come on the big slide, but her older sister could. I had lots of fun and the big slide was the BEST!!! I was so so sad when I had to leave. But overall, my favorite thing was not a slide but the splash pool.

By Giselle M.

MY BABY SISTER

My best summer was when my mom was in the hospital and she was giving birth to my sister Rileigh.

Rileigh was red and pink when she came out and she cried so much I wanted her to stop. She was so adorable and had a lot of hair. There was also a spinning chair and it was amazing I just

SUMMER MEMORIES

wanted to take it home, so I did.

My mom was still in the hospital for the second day and we waited for her doctor to tell her if she was ready to go home. They called and they said my mom could go home. We were so excited and COLD like a ice cube.

I was so happy now that we are starting a new chapter of our family.

By Chau N.

BEST SUMMER EVER

This summer was fun because I went on a field trip. I went to Splash Waterpark. I liked going to the waterpark. I had lots of fun in the water! I

went on the big slides. The slides were twisty and turny. I got to get funnel cake from my brother. I went in the Lazy River with my brother and his friends. We were in floats on the water, and I kept pushing his friend off the tube. It was funny!

By Audrey J.

MY FUN, UN-BUMMER SUMMER

My favorite parts of this summer were all the different places I went to with my mom and my sister.

First I went to Soak City a couple of times. We went down the Lazy River, on the water slides, and did other things there.

Another thing I did was that I went to Las Vegas. In Las Vegas, we went to the M&M store and the Hershey store. We also swam in the pool everyday. We also went to Circus, Circus.

Another place we went to was Indio, California. We also went in the pool there too.

My sister and I also played Lawndale Summer Basketball. We

were on the same team, and our record was 4-1.

We also went to Summer RAP. We went on multiple field trips and had fun events. I had a lot of fun this summer.

By Telayia F.

SUMMER IN THE PHILIPPINES

This summer I went to the Philippines, and to the city Manila. I went in a plane and they gave us free food. I ate fish and rice, and my drink was apple juice. The food on the airplane was really good.

When we landed I was excited to see my family

in a different country. They were really nice. They bought me a lot of stuff. They brought us in a shop and it was so golden!

After the shop, we went to a house that my family said was haunted. But it wasn't really haunted or spooky. We stayed up at night, and we didn't sleep for two nights in a row. Then the third day we went to a house and slept really long.

When we woke up, we went to McDonalds, and we ate a lot of food there that was different than what McDonalds serves in California.

Afterwards, we went to a mysterious hotel. It was called Dream Works. It was cool and they had a pool and fun activities. There was also a playground that you have to buy with expensive money. We went there four times and the playground was scary, awesome, and ultimate!

We slept in the hotel for two days, then we left. I was sad because it was fun there. We went to another shop and we bought loads of stuff. After that we went to

SUMMER MEMORIES

another hotel that was really scary. There was a humongous pool and waterslides!

When we left, we had to go back to California. I was sad because I had to leave my family, but we packed up and left.

By Sean A.

SUMMER CHILLIN'

I had a great summer. I watched *Sky High* on Netflix. It is about high school students having super powers and they save people. It is my favorite show.

I also ate food, drank water, and played a lot.

I went to my cousin's house to visit, and had good meals there. I ate soup and meat and rice and it tasted good. My grandparents cooked the food.

My summer was super fun. I can't wait until next summer but I am also excited for school.

By Loc N.

MY SUMMER

On my first day of summer, I was happy. One reason is because I went to the park. At the park, I played with the ball with my brother.

Another reason is because I went to Chuck-E Cheese, and it was fun. There I played games to win tickets. I got makeup as a prize. Another reason is that I got to get strawberry ice cream. I bought it at the ice cream shop. It was yummy. Vanilla is my favorite flavor but I still like strawberry. My brother got chocolate ice cream and that is his favorite.

Another reason is because I got to go to the beach too, and it was so fun. I got to swim and I made sandcastles. We made chocolate chip cookies afterwards and ate them.

By Marley V.

PIZZA SUMMER

I helped my mom make pizza. We put applesauce, candy, and a tic tac on the pizza. My favorite part of the pizza was the applesauce. It was good to me. If you don't like pizza, you are crazy. Pizza is my favorite food.

During the summer I slept a lot. I like not having to do anything. My water bed is really comfy and I never want to leave.

I watched the movie *Sing*. I liked the characters and how they sang. I watched *Moana*. I liked the part when they went to open the entrance to the Realm of Monsters.

By Joshua T.

THE CAMPING TRIP

My summer was fun! I went camping in Sacramento with family and friends.

I couldn't go to sleep

at night time, and instead I went to sleep in the daytime when we were going around the mountains. I only slept for three hours.

The place was called Lake Utah. First we brought out the things that we need in our tents and we just left them outside. After we built the tents, we started putting in the stuff to sleep on, our clothes, and our towels.

My mom and some friends started making food for everyone. We started eating the food, it was hot but I was hungry, and I ate it very hot. It felt like my mouth was on fire. I had to drink a lot of water.

We went to the store for gum, sandwiches, and more food.

Afterwards, at the camp site, we started a campfire. Then we went to sleep. It was a bear-active site.

By Johana G.

SUMMER MEMORIES

MEXICO

This summer I went to Mexico for three weeks. I got to see the clouds from the airplane. On the airplane, I got free food - chips and soda and donuts.

When we got to Mexico, it was raining. We

went to a pool and it was raining.

The next day I went to see bulls! After that we went to eat meat. We took pictures and went to the Aztec pyramids. I also saw adobe houses that had high holes.

By Jorge G.

MYSTERIOUS THINGS

Over the summer I watched *Stranger Things*

on Netflix, and I thought it was great. I think it's a great show and everybody should watch it.

My favorite part was when Mike was going to jump off a cliff because the bullies were trying to get him to do, but Eleven saved him. My favorite characters are Nancy and Jonathan. They're my favorite characters because of their friendship and bravery.

I watched the movie by myself. I loved this movie because it was addicting and interesting. The show is about a kid who goes missing by a monster/alien.

The message to this show is to be a team and never give up and always be yourself.

By Hector M.

YOUTUBE SUMMER

My favorite thing to watch on YouTube is Logan Paul. He is my favorite YouTuber to watch because he has two pets. One is named Maverick and one is named Kong. Maverick is a bird. Kong is a Pomeranian dog.

Also, I watched Jake Paul, but he only has one pet. It is a Chihuahua named Apollo.

By Loc N.

NEW YORK

I went to New York this past summer. I saw the

Statue of Liberty and I saw a play.

I stayed for two weeks in New York. Then, I went back home and I went to summer RAP. Summer RAP was really fun, and I got to play job break in RAP.

I also went to the beach and to a water-park. Both were fun.

I saw a pool at the waterpark, and it was four feet deep. I jumped in the pool and I touched the ground with my toes. I went up the pool and I was in the pool for one hour but then got out because I was cold.

When she is grown up, she is going to be a gymnast because she loves doing flips.

By Janada W.

JANADA

Janada is in my class during regular school, and afterschool. We have known each other since 2016. She is one of my closest friends and classmates. Here are a few things about her.

I came up with the name Jana to call her for short. From now on, everyone else calls her Jana too. It's also because she

Frauman, Aniyah, and myself are the funniest people she knows.

One of her favorite shoe brands is Nike. Her favorite type of phone is an iPhone 6 Her favorite app is Disney NOW.

Interviewing Janada was extremely fun.

By Telayia F.

TELAYIA

Telayia is a nice person and she is kind. Every time I do something funny, she laughs, and every time she does something funny, I laugh.

PRINCIPAL'S CORNER

I'm very proud of our Dolphin journalists and authors. It was a real pleasure reading the articles and learning about our authors.

It is clear our students spent a great deal of time researching, writing and editing their articles. All of your hard work has re-

ally paid off. I hope all of our journalists continue to write and learn.
Mr. Jaquette

NOTE FROM RAP

We are all excited to read the Dolphin Times! Our Reporters have worked so hard creating fun and inspiring articles for all of our students at Anderson. Joining RAP after school allows you and your friends to be part of this amazing experi-

ence with the Dolphin Times.

This club helps you with your writing, reading and social skills while still having a good time with your friends.

This is also a great opportunity to learn more about being a re-

porter if you plan to be one when you grow up.

We look forward to reading the next issue with more engaging and fun articles from our Dolphin Times Reporters.

Great job, Dolphin Times Reporters!
Mrs. Belem

DOLPHIN TIMES and **PRESSFRIENDS**

would like to thank

Bank of the West and
L.A. County Supervisor Mark Ridley-Thomas
and L.A. County 2nd Supervisorial District for their support

and **Youth Service America** and **Hasbro**
for the **Be Fearless Be Kind** grant
